

Dear parents/carers,

I want to thank you all for your support in what was one of the most unusual starts to a school term we have ever seen. Together, we have been able to make the best of this situation and ensure your child's safety and continuity of learning.

Yesterday, the State Government announced changes to education based on a review of current arrangements and updated health advice.

As of Monday, 18 May 2020 all students are expected to attend school, except for those students medically referred to learn from home.

This means students are either:

- at school;
- have a medical referral to learn from home; or
- recorded as absent if they do not attend.

Over the last three weeks we have seen 95% of our students return to school, which has been fantastic.

Current health advice states that schools remain safe for staff and students and should remain open. We want to make sure all children get the best education possible, which is why attending school is so important. We are here to make sure all children are learning and there's no doubt, schools are the best place for them to learn.

The extra cleaning and hygiene practices implemented at the start of Term 2 will continue and as part of the social distancing measures, we continue to ask parents/carers to drop children at the designated areas and not enter the school grounds. Once children are collected, particularly in the early years, we ask parents not to allow the children to come back into the school as it can cause some confusion around who has been collected and who hasn't.

Thank you for your continued support as we move forward. The school will continue to base its arrangements on the advice of the State Government and the Chief Health Officer.

Kind regards,

Michael Black  
Principal

## Novel Coronavirus (COVID-19) Update

Dear parents and students

### Updated Advice from the Chief Health Officer

Schools have now been open for students since the commencement of Term 2 and I am very encouraged by the way the school community, parents and students are caring for their health and attending school in a responsible way. This is building community confidence in the safety of our schools with the overall attendance rate reaching over 82%.

WA recently recorded 14 days with only 2 reported cases, both of whom were rapidly identified and are in isolation. With over 56,000 negative tests and only 7 active cases, there is no evidence of community transmission.

The WA State Government has recently announced further decisions about the easing of restrictions in our state as part of a phased approach in the management of the pandemic. These decisions have been based on public health advice and will continue to be carefully monitored in the weeks ahead.

Public health measures already in place to protect the community will remain a focus during this time, including broad testing, comprehensive contact tracing when a case is identified, isolation and quarantine measures where required, and education about social distancing and hand hygiene. Plans remain in place to ensure immediate response to any reported infections in the school setting when needed to prevent the spread of any illness.

I continue to recommend that schools should remain open to all students and families should be encouraged to return their children to the classroom. If your child is more vulnerable due to health problems or you have a vulnerable adult living in your home, then I would recommend seeking advice from your specialist medical practitioner as to whether returning to school remains the best option for you.

We need to remain diligent during this time and I encourage you to please make sure you keep your child home if they are unwell and, if you or your child have fever, cough or cold symptoms, get tested for COVID-19. We should all continue to follow the social distancing guidelines when interacting with other parents, teachers and school staff.

Thank you again for your leadership and support during this challenging time.

Yours sincerely

**DR ANDY ROBERTSON**

Chief Health Officer
